## AAAEA - Capital Area goals

To further the public welfare whenever engineering knowledge is involved and to act upon matters which are the concern of the engineering profession.

Promote cooperation and mutual assistance among the members.

Conduct technical seminars to update members' knowledge on the latest technologies and regulations affecting the engineering profession.

Empower AAAEA members for professional achievements.

Establish scholarship programs to encourage qualified and talented students to pursue engineering field studies.

Network with other professional organizations.

Serve the professional interest of the general membership and strive to promote professional consciousness and fellowship through collective interdisciplinary activities all in accordance with recognized and established engineering ethics, and within existing applicable laws.
